GREETING-BEST WISHES.

Another year of hard times has gone by and now we find business somewhat improved. Not that it is yet what it might be, but you can help all in your power by raising and marketing only the best of everything. that you must have the best in seeds. To do Plant Richardson's. If you've never tried them yet, you'll see what the result is likely to be, by reading the testimonials herein.

Don't you ever believe that because a firm doesn't issue a 200-page catalogue printed in all the colors of the rainbow, with exaggerated pictures and descriptions, that they don't sell good seeds ? We sell good seeds, because it's the only right treatment of our customers. Did we entirely disregard 'our obligations to God and right, we should still endeavor to sell good seeds, to keep our customers-"honesty is the best policy."

We warrant our seeds thus far that we will replace any that fail.

"Good seeds in large packets at low prices" is our motto.

By a careful comparison, you will find that, with better times, other seedsmen have advanced many of their prices this year. We have made a number of price changes, but

have advanced prices on not one single item. Our store and office is situated on Richardson's Gardens (the largest in this vicinity) where we annually gain much knowledge of seeds.

May we not have your orders ? Cordially yours,

A. A. RICHARDSON.

Faribault, Minn., Feb. 15, '98.

These Faribault men or firms have kindly given us permission to refer to them (enclose stamp in writing them):

CITIZENS' NATIONAL BANK. FARIBAULT REPUBLICAN, A. W. McKinstry, Prop. and Ed. C. D. McKellip, Associate Editor. Bolles & Snow, the Fair Store.

We can recommend the firms whose advertisements are in these pages. In writing to them please mention Richardson's catalogue.

From the Isanti County Press of September 9, 1897 .- "'The splendid appearance and fine quality of many of our county's exhibits at the [State] Fair are due in no small degree to the excellence of the seeds, which have been furnished by A. A. Richardson, of Faribault."

Because, 1st, it contains no alum nor ammonia, but is fresh, pure, clean, strong and healthful.

2d.-Our strongest claim is only that it is just as good as any other in the market - some ladies say it's better.

3d.-It costs no more than other standard absolutely pure baking powders, but we give with each pound

A VALUABLE PRESENT

-different presents at different times.

When you send for a seed order to go by express or freight send extra half dollar and a pound of Rich Baking Powder will be sent you together with 3oc. worth of flower pots of your selection, or a set Cristy-pattern knives. Buy one pound-you'll buy more.

Save the ticket in each can for a camera, July 4th.

ANYTHINC THAT YOU

Do you want to own a Camera, Watch, Autoharp, Silverware, Dinner or Tea Set, Sewing Machine, Gun, Incubator, Bicycle, Organ, or some other longed-for possession?

HOW YOU CAN DO IT.

YOU

CAN

Just spend a little time taking orders for Richardson's Seeds. It will be quite easy. Indeed, you will be surprised to find what really easy and pleasant work it is. Nearly everybody has to buy seeds from somebody somewhere. You will find that, with very little urging on your part, your friends will readily buy Richardson's Seeds through you. A few hours' work will earn you the less expensive premiums, and by a few days spent even the highest priced will be yours.

HOW WE CAN DO IT.

We want to have Richardson's Seeds introduced into every locality of the United States. It would take hundreds and hundreds of thousands of dollars to reach every locality through newspaper advertisements, and besides results from advertisements are never certain. So you see we can well afford to pay you handsomely for work the results of which are sure. We expect to make our money on purchases of future years from the customers you secure. Those who prefer may have cash premiums for their work, but you will readily see that we can afford to give you better value in these premiums, which we buy for cash at wholesale, and which will be standing advertisements for us.

DO IT!

Try it, won't you? Try selling "good seeds in large packets at low prices"-Richardson's Seeds.

Richardson himself started into the seed business only a few years ago, beginning by selling seeds for an eastern seed house. Some thought the firm he was working for was too far east and south. We are here in this cold northwestern country, and no one can make that objection to buying from you now. Richardson found that it was easy to sell people seeds, and after much study and application began a seed business of his own, and now wants you to sell his seeds and offers you these splendid premiums for a little work. Richardson still keeps in touch with his agents by doing some canvassing each year. In January, he had a letter from a friend in a nearby town, saying:

"Are you coming over here to sell seeds this year? I heard some say they liked your seeds and look-ed for you last year."

Our friends know and recommend our seeds. Others will do so, after they once use them. We, of course, furnish as large packets, and the same high quality, of seeds on these club orders as on our regular mail orders.

Now won't you start right to work? If you want some sample packets of our seeds to show, send us a dime for postage, and we'll send you several packets, both vegetables and flowers, also extra catalogues and order blanks, etc. We'll help you in every way possible. We'll to any wheels produced at any price. Ladies'

please you with the premiums and please your friends with Richardson's Seeds.

Cordially yours, A. A. RICHARDSON, Prop.

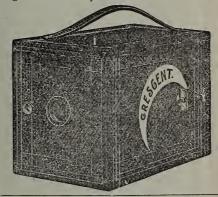

These goods are (like our seeds) just as represented. We will furnish you a further description of any you desire on applicationhave descriptive circulars of some.

The amounts of club orders stated are the amounts of seeds in packets, for which the premiums will be given. Vegetable and flower seeds in ounces count one half, and in other quantities one-fifth, as much as seeds in packets towards the premiums. As much credit as possible will be given on orders for other goods write about it.

SWEET POTATOES.

Many do not know that these may be raised here. One man in Faribault raised a large one last year from our plants about 14 in. long. The Northfield *Independent* told last fall of a man who raised 15 bushels last summer and thought they were as easily raised as Irish potatoes.

Plants ready about May 1st and after.

Yellow Nansemond is one of the best varieties for this section. Plants only 45c per hundred.

Vineless Gold Coin Prolific is claimed to be much earlier and a better yield than others. Plants 75 per hundred.

If you want several hundred or thousand plants, write for prices on amount you want.

After all that bad luck I had enough crop left to take first premium on farm exhibit at the State Fair last fall. If it had not been for your seed, our county would not have taken 3d premium at the State Fair [there were 1] compatibutes 1 As long as I receive as source were 11 competitors] As long as I receive as square a deal as I always have had from you I will use no other seed."

POTATOES.

In trials last year of the first hve varieties below Acme was earliest of all, then Michigan and then Thoroughbred. As far as yield was concerned, there was not much difference in the five. A cme-"will eat in 5 weeks from planting; is ear-lier and a little larger than the Ohio and is in gener-

al very desirable; produces as largely as late strong growing kinds."

A farmer in the potato belt, north of Minneapolis, writes: "I raised 14 varieties of potatoes (a kind of private experiment station) but your "Acme" was as early as or earlier than any I had; it also out-yielded any early potato and was free from scab or rot.

Early Michigan-"Snow white, extra in table quality and way shead in productiveness." Early Thoroughbred-Introduced in '96 at \$1.50 per lb.-"surpasses its parent, Early Rose, in earli-ness by 10 days. and in yield 3 to 1." Uncle Sam, the People's Potato.-"Destined to

become the most popular late market potato; heavi-est cropper grown but superb cooking qualities-

est cropper grown but supero cooking quanties-white, dry, and floury." Country Gentleman-Resembles Beauty of He-bron; "large cropper and a strictly first-class late or winter market potato." World's Fair-Resembles Snowflake in appear-

ance and quality but better yielder.

SHIP Your Grain Yourselves

to the primary market and SAVE the Middleman's Profit.

There is no reason why farmers should continue hauling their grain to their nearest station, selling it to the grain buyer for whatever he chooses to offer for it, when they can ship it themselves and obtain as much for it as the grain buyer receives.

When shipping to Chicago, farmers give only the legal number of pounds to a bushel, receive fair weights, state inspection and get paid for all the grain they raise. The disposal of his grain in a business like way-thus securing the best price possible—is fully as import-ant to the farmer as to raise big crops. Write for full information how to ship. Address,

ADVICE TO FARMERS.

Proper and Advantageous Way to Sell Farm Products.

These are the days of new ideas, of new departures. The business world makes advancement just in proportion to the individual efforts in branching out in new methods. Farmers have new and improved ways of doing things-they seed different, plow different, harvest different, thresh different, but most of them market what they raise the same old way. The old time receiving and commission house of H. H. Carr & Co., in the Chicago trade, has come to the front with something new, a new method of marketing. The H. H. Carr plan is founded on three ideas--common sense, simplicity and better profits for farmers. This means every farmer his own shipper.
